

FIBARO[®] | The Button

Model: FGBHPB-101

FIBARO Button is a HomeKit-enabled, compact, battery-powered wireless controller using Bluetooth® low energy technology. It allows you to control HomeKit accessories using Automations. Various actions may be triggered with one clicks, two clicks or by holding the button down. With its small design and wireless communication, the FIBARO Button can be conveniently mounted on any surface and in any position or location at home, e.g. beside the bed or under the desk.

PRODUCT HIGHLIGHTS

- ✓ Compatible with Apple HomeKit technology
