

KX-PRS110

Panasonic PBX Wireless Telephone KX-PRS110

High-quality design telephone with large color display

Style and elegance for your home.

The new design fixed-line series from Panasonic KX-PRS110 impresses with appealing exterior design and many practical functions:

For the simple and intuitive operation, the tidy user interface of the brilliant 2.2" color LCD display in fine QVGA-resolution. The visual language is pleasantly reduced and immediately clear.

Top organized: Thanks to the convenient **calendar function** with **appointment reminder**, and the full-fledged **alarm clock** with snooze function is the cordless telephone a small organization talent.

The phone book includes a memory for up to 300 entries. You can call up to 3 numbers per name, for example, business and private mobile is stored.

Peace of mind for parents offers the **baby monitor function**: registered in the children's room placed handset noise, is either a new handset in the home phone or an external number selected such as papa's mobile phone.

Some phone calls should, however, be guided not only: for example the with expensive contest offers or with unwanted calls. For this purpose, the KX-PRS 110 up to 100 **call number lock** for incoming calls. For outgoing calls can be up to six numbers or number ranges such as 0800 xx can be blocked.

Clever Feature: The **Talking Caller Id** says automatically the telephone number of the caller, or its name if the stored phone book.
