

## SZ-PSU2405A

### Power Supply 24VDC 5A

Industrial switch mode power supplies to provide high power output with the convenience of DIN rail mounting. Ideal for inclusion in switchboards and control panels or simply to fit alongside other mounted equipment within DIY projects. Superior efficiency and output regulation make these an excellent solution for many power supply applications.

#### Features:

- Output Voltage: 24 Volt DC (Adjustable  $\pm 10\%$ )
- Ripple & Noise: 80mV
- Output Current: 5A
- Efficiency: 84%
- Input Voltage: 100 ~ 240VAC
- Input frequency: 47 ~ 63Hz
- Cold Start Inrush Current: 60A @ 230V
-
